Docket Number: E-01345A-16-0036 and E-01345A-16-0123

March 2017

Commissioners,

I urge you to say no to any rate or other increases APS is proposing for our electricity bills.

Every few years or so APS seems to seek more money from small business and residential ratepayers. Yet in the years in between their requests I have yet to see what they are doing to avoid coming back and asking for more money.

Increasing the mandatory monthly charge - which ratepayers must pay - negatively impacts small businesses and residential ratepayers who employ energy efficiency and energy conservation as part of our standard practices. We should be applauded for saving energy. Instead an increase to the mandatory monthly charge would result in a higher charge we cannot control.

Please vote no on mandatory increases to our bills. Let myself and other small business owners have more control over the costs.

Thank you.
